RESULT

ENV1.2 Quality level: No Requirements

ENV1.3.1 Quality Level: No Requirements

ENV1.3.2 Quality Level (Secondary raw materials): No Requirements

PRODUCT DATA

The reported pre-consumer recycled content percentage excludes production scrap generated and reused by Mosa. Under EPD methodology, this scrap can be included as pre-consumer recycled content. As a result, the recycled content percentages reported in our EPD are higher than those shown here.

Product Type: Tiles: Glazed Wall in accordance with EN 14411 BIII

The product (usually) makes a relevant contribution to the total construction costs of a project (>0.5%): No
The product is free of SVHC (< 0.1%).: Yes
Pre-Consumer Recycled Content [%]: 6,3
Post-Consumer Recycled Content [%]: 0

These results were generated using EPEA's Product Compliance Assessment (ProCA) service. This offers an independent, objective and tamper-proof assessment of products based on their product characteristics. The product data above was provided by Mosa as a basis for the assessment.

Mosa.

Compliance-Declaration for:
LEED Version 4.1

State: 11.09.2026
Valid until: 11.09.2027

RESULTS

MRc4: Material ingredient reporting – Product contribution [%]: 150 of 150

MRc4: Material ingredient optimization – Product contribution [%]: 150 of 200

MRc2: Env. Product Declaration EPD - Product contribution [%]: 150 of 150

MRc2: LCA Optimization - Product contribution [%]: 200 of 200

EQc2: Low-Emitting Materials - Product contribution [%]: 100 of 100

MRc3: Sourcing of raw materials – Product contribution [%]: 0 of 200

PRODUCT DATA

The reported pre-consumer recycled content percentage excludes production scrap generated and reused by Mosa. Under EPD methodology, this scrap can be included as pre-consumer recycled content. As a result, the recycled content percentages reported in our EPD are higher than those shown here.

Product Type: Tiles: Glazed Wall in accordance with EN 14411 BIII

An environmental product declaration (EPD) is available for the product.: Yes
Which LEED method should be used to prove VOC emissions?: Naturally emissions free
Which method should be used to verify the ingredients according to LEED?: Cradle to Cradle Certified
Should the product be classified under the criterion sourcing of raw materials?: Yes
Pre-Consumer Recycled Content [%]: 6,3
Post-Consumer Recycled Content [%]: 0
What type of EPD is available for the product?: Product specific EPD
The product is (usually) manufactured within 100 miles/160 km of the installation site: No
The manufacturer offers an Extended Producer Responsibility (EPR) program for this product: No
Proportion of directly reused materials in the product [%]: 0
Have measures been taken to optimize the product's environmental footprint?: Min. 20% reduction in GWP & 5% in two other categories.
The product is Cradle to Cradle (version 3 or later) certified: Gold

These results were generated using EPEA's Product Compliance Assessment (ProCA) service. This offers an independent, objective and tamper-proof assessment of products based on their product characteristics. The product data above was provided by Mosa as a basis for the assessment.
