Classics Trocadero

Classics Trocadero is an ode to the metro station. The series comprises classic, glossy black and white tiles with facet edges. The facet ensures a subtle light reflection that gives walls a spacious look. These days, the metro tile has a broad range of uses, from renovations to contemporary interiors. The use of Classics Trocadero guarantees a timeless look.

A series of classics. Classics is Mosa's homage to the icons among the tiles. This series represents timeless and contemporary tile design. With a varying signature, the Classics are applied continuously within contemporary architecture. Classics comprises three series: Classics Foxtrot, Classics Kho Liang le Collection, and Classics Trocadero, all series that have proven their staying power over the years.

Service

Sample service

Choosing the right tile purely on the basis of photos can be tricky. You can more easily judge the quality, colour, texture, and the design if you have the tile in your hands. Colour samples and sample folders can therefore always be requested free of obligation via your project adviser, Customer Service, Mosa showrooms, partners, and our website.

Documentation and personal advice

From design to implementation, you can turn to Mosa at every stage of the process for inspiration, production information, or advice. Our website features a wealth of information and resources, including references, brochures, technical specifications, other specifications, and much more. If you would like personal advice, please contact our Customer Service team or project advisers.

Design Studios and distributors

Mosa has its own Design Studios in Maastricht, Amsterdam, and London where designers, architects, and clients can come to experience the look and feel of our entire tile collection. Alternatively, you can go to one of our distributors. Our website will provide more information on the distributors near you.

Any questions?

We set high standards for the advice and support provided to our clients. This means that we actively aim for dialogue and that we are interested in what interests you. This forms the basis for good cooperation. We are happy to contribute ideas and suggestions to make things as easy as possible for you. We are a partner, from the beginning to the end of the building process. Our Customer Service employees and your project adviser are always ready to assist you.
