## Classics Kho Liang Ie Collection

A well-known classic 1960s design: this series was designed by Kho Liang Ie (1927- 1975), one of the most important interior designers and industrial designers in the Netherlands. The Classics Kho Liang Ie Collection comprises six glossy white wall tiles with a relief of circles, circle segments, diagonals, and triangles. Alongside the relief tiles, there is also a matching smooth tile. In combination, the relief tiles create a striking geometric look. Patterns seem to emerge by themselves.

A series of classics. Classics is Mosa's homage to the icons among the tiles. This series represents timeless and contemporary tile design. With a varying signature, the Classics are applied continuously within contemporary architecture. Classics comprises three series: Classics Foxtrot, Classics Kho Liang Ie Collection, and Classics Trocadero, all series that have proven their staying power over the years.

Classics Kho Liang Ie tiles are available exclusively in white and in the format 10 × 10 centimetres. Combining circles, diagonals, and triangles with each other creates a distinctive look. The combination of relief tiles and smooth tiles results in a more subtle wall.

## Service

### Sample service

Choosing the right tile purely on the basis of photos can be tricky. You can more easily judge the quality, colour, texture, and the design if you have the tile in your hands. Colour samples and sample folders can therefore always be requested free of obligation via your project adviser, Customer Service, Mosa showrooms, partners, and our website.

### Documentation and personal advice

From design to implementation, you can turn to Mosa at every stage of the process for inspiration, production information, or advice. Our website features a wealth of information and resources, including references, brochures, technical specifications, other specifications, and much more. If you would like personal advice, please contact our Customer Service team or project advisers.

### Design Studios and distributors

Mosa has its own Design Studios in Maastricht, Amsterdam, and London where designers, architects, and clients can come to experience the look and feel of our entire tile collection. Alternatively, you can go to one of our distributors. Our website will provide more information on the distributors near you.

## Any questions?

We set high standards for the advice and support provided to our clients. This means that we actively aim for dialogue and that we are interested in what interests you. This forms the basis for good cooperation. We are happy to contribute ideas and suggestions to make things as easy as possible for you. We are a partner, from the beginning to the end of the building process. Our Customer Service employees and your project adviser are always ready to assist you.
